Experience

SiRiiL

Associate Software AI/ML Engineer | January 2025 – January 2026

- Automated financial operations including month-end closing and management reporting.
- Built bank reconciliation automation with ~90% accuracy, along with prepayments, fixed assets, and other month-end close services.
- Developed automated management reporting to generate Balance Sheet, P&L, ratios, analysis, and executive summaries from trial balance data.
- Created a natural-language-driven graphing system that generates any requested financial chart from user queries and data.
- Implemented a Django REST Framework backend to power financial automation and reporting services.

Projects

Document Classification System

OCR | Document Classification | Face Recognition | Vector Similarity Search | Machine Learning Systems

- Built an AI document classification system using OCR and multimodal features.
- Achieved ~88% document classification accuracy on mixed datasets.
- Implemented similarity-based clustering for automatic document grouping.
- Enabled text-, field-, and face-based search, achieving ~92% retrieval accuracy.

Game AI Systems

Python | AI | ML | pygame

- Developed AI agents for multiple games including Chrome Dino, Connect 4, and Chess using genetic algorithms, neural networks, mutation, and crossover to achieve autonomous gameplay.

Student Management System

Django | PostgreSQL | Python | HTML/CSS/JS

- Designed and implemented *ClassMate*, a student management system with features for attendance, marks management, course enrollment, and dynamic grading using Django and PostgreSQL.

EDUCATION

FAST NUCES

2022-2026

BS-CS

Karachi

- **Dean's list of Honour**(Spring 2023)

SKILLS

Python, TensorFlow, Scikit-learn, Django REST, LangChain, Docker, PostgreSQL, AI/ML, Game Development (Pygame), C/C++, OOP

ACHIEVEMENTS

- **ICPC World Finalist 2026 — Rank 1** in Pakistan
- **Ignite** Digital Pakistan Speed Programming — **Bronze Medalist**
- **Multiple-time Competitive Programming Winner** — DevDay'24 (FAST NUCES), TechFest'25 (NED), Procom'26 (FAST Karachi), HackFest'26 (IBA), Coders Cup (FAST NUCES, 2024–25)
